EXTENDED CARE

AI Machine Extended Care Policy

Optional protection and enhanced support for Nexa AI systems

NexaStore Knowledge Series • 2026 Edition

1. What Extended Care Adds

Nexa AI Machine Extended Care is an optional fictional service plan for eligible NexaBook AI laptops, NexaStation workstations and NexaAI Mini systems. It supplements, but does not replace, the standard hardware warranty.

Benefit	Standard warranty	AI Extended Care
Manufacturing defects	Covered	Covered
Priority support queue	Standard	Included
AI runtime setup guidance	Basic documentation	Guided support for supported local AI stacks
Annual health check	Not included	Included
Accidental damage	Not included	One approved incident per 12-month plan period, subject to terms
Battery service	Manufacturing defect only	Enhanced threshold subject to diagnostic validation
Onsite support	Product dependent	Available for selected workstation plans

2. AI Software Assistance

- Supported GPU driver installation and validation.
- Basic local-model runtime setup guidance.
- Troubleshooting GPU visibility and memory errors.
- Environment checks for supported developer/AI toolchains.
- Guidance does not guarantee performance or compatibility for every third-party model, library or custom codebase.

3. Exclusions

Not covered	Examples
Intentional / reckless damage	Deliberate damage or unsafe modification
Unsupported hardware modification	Unauthorized board/GPU/power modifications
Data loss	Lost files, models, credentials or datasets
Third-party service outage	Cloud/API/provider availability
Model/application defects	Bugs in third-party models or custom software
Commercial performance guarantee	No guarantee of tokens/sec, model quality or training completion time

4. Claim and Support Flow

Step	Action
1	Validate active care entitlement and covered device.
2	Classify hardware, accidental damage or AI software-support request.
3	Run documented troubleshooting/diagnostics.
4	Route to remote support, depot, onsite service or approved accidental-damage workflow.
5	Record resolution and remaining plan entitlement.

5. Agent Boundaries

Question	Authoritative source
Does customer own Extended Care?	Entitlement service
What benefits are included?	This policy via RAG
How many accidental claims remain?	Claims/entitlement service
Can support execute a repair?	Authorized service workflow
Can RAG approve coverage?	No - it provides policy context only.

6. Important

This is a fictional educational service plan. Real protection plans require jurisdiction-specific legal, insurance and service terms.
