Customer Policy & Service Standards

Damaged Product Policy

Transit damage, DOA cases, evidence and replacement handling

NexaStore Policy Library • 2026 Edition

1. Purpose

This policy covers products that arrive physically damaged, incomplete because of transit damage, or dead on arrival (DOA). It is distinct from accidental damage caused after delivery and from failures that develop later under warranty.

2. Reporting Windows

Issue	Recommended report window	Route
Visible transit damage	Within 48 hours of delivery	Damaged-product workflow
Missing item/component from damaged parcel	Within 48 hours	Damaged-product workflow
Dead on arrival	Within 7 calendar days	DOA assessment
Functional defect discovered later	Within return/warranty entitlement	Return or warranty workflow
Customer accidental damage	Not covered here	Repair/extended-care route if applicable

3. Evidence

• Order number and affected product.

• Product serial number where applicable.

• Clear photographs of external packaging and visible damage when available.

• Photographs of the product damage and shipping label.

• Description of missing parts or DOA symptoms.

• Retention of packaging until support confirms whether carrier inspection is required.

4. Resolution Options

Validated situation	Possible resolution
Transit damage, stock available	Replacement shipment
Transit damage, replacement unavailable	Refund or agreed equivalent
Minor cosmetic damage accepted by customer	Approved partial remedy where policy/workflow permits
DOA confirmed	Replacement or refund
Damage inconsistent with transit	Escalate for assessment; standard damaged-product remedy may be declined
Missing accessory	Accessory replacement where validated

5. What This Policy Does Not Cover

Scenario	Applicable path
Drop or liquid damage after delivery	Accidental damage / repair
Normal wear	Not a damaged-on-arrival case
Software problem	Technical support / troubleshooting
Manufacturing failure after initial period	Warranty
Buyer changed mind	Returns and Refund Policy
Package not received	Shipping and Delivery Policy

6. AI-Agent Decision Flow

Step	Agent action
1	Retrieve order/delivery facts from the order service.
2	Retrieve this policy to determine the applicable reporting rule.
3	Collect user-supplied damage description/evidence through the support workflow.
4	Use authorized business rules to classify transit damage, DOA or another route.
5	Offer only resolutions permitted by inventory/payment/support tools.
6	Record the case; do not let the LLM invent approval or refund status.

7. Important

This fictional policy is designed to teach RAG + tool-based agent workflows. Actual legal rights may differ.
