NexaStore Product Comparison Catalogue

Cross-category comparison for laptops, workstations, GPUs and accessories

NexaStore Knowledge Series • 2026 Edition

Cross-Category Product Comparison

Illustrative NexaStore catalogue for recommendation and document-extraction exercises. Exact live price and stock belong in the commerce database, not the RAG corpus.

Product	Category	CPU	GPU / VRAM	RAM	Storage	Best fit
NexaBook Developer 14	Laptop	Core Ultra 7-class	Integrated Arc-class	32 GB, up to 64	1 TB NVMe	Cloud/full-stack development
NexaBook Pro X16	Laptop	Core Ultra 9-class	RTX 5070-class / 12 GB	64 GB	2 TB NVMe	Developer + local AI
NexaBook AI Studio 16	Laptop	Ryzen AI 9-class	RTX 5080-class / 16 GB	64 GB, up to 128	2 TB NVMe	Mobile AI + creator
NexaAI Mini	Mini workstation	Core Ultra 7-class	RTX 4060-class / 8 GB	32 GB, up to 64	1 TB + M.2	Home lab / light local AI
NexaStation AI WS1000	Tower workstation	Core i9-class 24c/32t	RTX 5090-class / 32 GB	64 GB, up to 256	2 TB + expansion	Heavy local AI / DL
NexaGPU A2000	GPU	-	8 GB GDDR6	-	-	Embeddings / entry AI
NexaGPU A4000	GPU	-	12 GB GDDR6X	-	-	Inference / creator
NexaGPU A6000	GPU	-	24 GB GDDR6X	-	-	Larger local models

Selection Signals

Need	Preferred starting point	Why
Portable .NET/Java/web development	NexaBook Developer 14	Balanced portability, 32 GB baseline, integrated graphics
Containers + RAG + moderate local models	NexaBook Pro X16	64 GB RAM and 12 GB discrete VRAM
Mobile GenAI / creator workflow	NexaBook AI Studio 16	16 GB VRAM plus expandable system memory
Compact AI lab	NexaAI Mini	Small footprint with discrete GPU
Large local models / CV training	NexaStation AI WS1000	32 GB GPU memory and workstation expansion

Feature Matrix

Product	Portable	Local LLM	RAG Dev	CV / DL	Gaming	Creator	Expansion
Developer 14	High	Light	Strong	Light	Light	Moderate	Moderate
Pro X16	Moderate	Strong	Strong	Strong	Strong	Strong	Moderate
AI Studio 16	Moderate	Very strong	Strong	Very strong	Very strong	Very strong	Strong RAM
AI Mini	Low	Moderate	Strong	Moderate	Moderate	Moderate	Strong storage
AI WS1000	None	Excellent	Excellent	Excellent	Excellent	Excellent	Excellent

RAG Metadata Hints

Useful ingestion metadata: documentType=catalogue; category=multi-product; brand=Nexa; year=2026. Product rows can also be extracted into structured records, but live price, availability and order eligibility should remain transactional.

Catalogue note

All products/specifications are fictional and designed for training. The catalogue intentionally uses dense tables to exercise document extraction.
